Whatever the occasion, Burrito Bar has everyone covered.

THE BURRITO BAR BUSINESS STRATEGY

At Burrito Bar, we are about more than just an exciting brand with great food, we are about creating a successful and profitable business model for our Franchise Partners. The world and business environment is changing dramatically and partnering with a franchise that stays ahead of the curve is essential for success, so Burrito Bar continues to evolve.

SMOKIN BURGERS N RIBS

In 2018 Burrito Bar launched Smokin Burgers n Ribs, an exciting new virtual restaurant brand.

Pioneers of the virtual restaurant brand concept in Australia, Burrito Bar utilised third party delivery partners such as Uber, Deliveroo, Menulog and DoorDash to bring Smokin Burgers n Ribs directly from the Burrito Bar kitchen to the customer's front door.

Growing from this, Burrito Bar have expanded Smokin Burgers n Ribs to provide an in-store presence allowing Burrito Bar Franchise Partners to choose from a **virtual** (no physical shopfront) or **retail** (with physical shopfront) store model and enjoy a second revenue stream with minimal costs. The menu is developed to appear unique and different to that of Burrito Bar and hit a high demand and under-served segment of the market, while utilising almost identical ingredients and similar kitchen processes to the Burrito Bar menu. This makes it as simple as possible for your kitchen team. Franchise Partners do not have to lease a new premises or buy new equipment and can utilise their existing Burrito Bar team to service Smokin Burgers n Ribs customers, giving fantastic economies of scale and minimal additional costs.

SWEET REPUBLIC ICE-CREAM & DESSERT KIOSKS

In 2020 Burrito Bar had reached an exciting new business chapter with the creation of Sweet Republic ice-cream & desserts.

Choosing Sweet Republic within your restaurant not only means an incredible range of ice-cream and desserts for your existing restaurant customers, but also opens up entirely new revenue streams, with very low upfront and ongoing costs.

By incorporating a Sweet Republic ice-cream & dessert kiosk into the existing Burrito Bar design and utilising the existing infrastructure, a Sweet Republic kiosk inside your Burrito Bar is a fraction of the cost of opening a standalone ice-cream kiosk in its own retail space and avoids almost all of the ongoing overhead costs associated with a separate retail space. For one relatively low cost, you have all the advantages of a Burrito Bar franchise and a Sweet Republic kiosk in the one business!

ESTABLISHING YOUR RESTAURANT

PURCHASING AN EXISTING RESTAURANT

Occasionally opportunities become available to take over the ownership of an existing Burrito Bar restaurant. The great advantage of acquiring an existing restaurant is that all the hard work has already been done in establishing a reputation in the area, and developing a team. Not to mention, after the purchase is completed, you can walk straight in and start trading.

ESTABLISHING A NEW BURRITO BAR RESTAURANT

At Burrito Bar we are always on the lookout for opportunities to develop and grow the Burrito Bar brand in new locations. That is why we are here to help Franchise Partners get established and become known to their local neighbourhood or an area of their choice.

DESIGN & FIT OUT

If you haven't had experience in the design and fit-out of a restaurant, it can be a daunting and technical task. But don't worry, we will take care of all the hard work for you, while making sure we deliver you a restaurant you will be proud to own. This includes all regulatory requirements and sign-offs, so when it's time to open, we hand you the keys and you're ready to go!

NEW RESTAURANT MODELS

One of the biggest strengths of Burrito Bar as a business is the diversity of our models. This means that Burrito Bar can adapt and succeed in almost every market, where other brands simply cannot. From our extensive menu and bar range that has something for everybody, to Smokin Burgers n Ribs brand with a more specialised menu and ice-cream and desserts range with Sweet Republick, we can successfully operate from high foot-traffic locations in CBD's to metropolitan areas and quiet regional towns, from premium shopping centres and dining precincts to suburban shopping centres, stand-alone and drive-thru locations.

Each Burrito Bar is unique and professionally designed to match the local market, the specific site and the preferences of the Franchise Partner. As a result, we have Burrito Bars that range from 60sqm in high foot-traffic locations to 300sqm in dining precincts and drive-thrus. The cost of setting up a Burrito Bar can therefore vary from approximately \$200,000 to \$500,000. However, we negotiate on your behalf with landlords who are always excited about having a Burrito Bar as their tenant and generally secure a contribution of between \$200,000 to \$250,000 towards this setup cost, which we pass on completely to our Franchise Partners. Combined with our low franchise fees, this often means that Burrito Bar is not only one of the lowest entry cost franchises, but also has one of the lowest ongoing costs compared to our competitors.

Burrito Bar is accredited with several lenders and our Franchise Partners are pre-approved, so obtaining finance for your new business is easy and straight forward.

TRAINING PROGRAM

Here at Burrito Bar, we want to teach you more than just how to make a Burrito! Which is why we have a comprehensive training program to ensure you and your business is set-up for long-term success. The minimum training program for Franchise Partners is 5 weeks, with additional weeks for those Franchise Partners who wish to add Smokin Burgers n Ribs and Sweet Republick to their business. Each week of training consists of 5 days, but this can be condensed to complete days consecutively if you are in a hurry or spaced out to fit in with your other commitments.

Franchise Partners opening new restaurants receive a total of 3 weeks additional training support (1 week before opening and 2 weeks after opening) to ensure your team is trained and operating effectively. Franchise Partners buying an existing restaurant receive 1 week of post settlement training support to assist you with taking the reins of your new restaurant.

These fees contribute to the ongoing support and development of Burrito Bar Franchise Partners, their restaurants and the overall brand. Ongoing support and development is provided by a team of highly experienced industry professionals in operations, training, marketing, public relations, menu development, supplier relations, leasing, human resources, finance, legislation, technology and computer systems. The franchise fee structure is designed to provide an additional burst of marketing support over the first 2 years of a new restaurant to ensure the best possible start. Franchise fees for new restaurants are:

First Year Fees: Royalty Fee: 5%, Marketing Levy: 4%

Second Year Fees: Royalty Fee: 6%, Marketing Levy: 3%

Third Year & Beyond Fees: Royalty Fee: 7%, Marketing Levy: 2%

Burrito Bar provides a discount on franchise fees for restaurants who provide their own delivery service or a delivery service through a third party such as Uber, Deliveroo, Menulog or Door Dash. This discount is to help offset the cost of providing these services to customers.
